### Description:

Edward Eager has been delighting young readers for more than 40 years with stories that mix magic and reality. *Half Magic*, the most popular of his tales about four children who encounter magical coins, time-travel herb gardens, and other unlikely devices, is a warm, funny, original adventure. The "Half Magic" of the title refers to a coin that the children find. Through a comical series of coincidences, they discover that the coin is magic. Well, it's not *totally* magic--it's only (you guessed it) *half* magic. That means there's a certain logic to the wishes one must make to generate a desired outcome. Imagine the results emerging from inaccurate efforts: "half" invisible, "half" rescued, "half" everything!

*Half Magic* is never too cute, and with just enough emotion to complement the magic, this book is sure to hold a special place in any child's library. (The publisher suggests the book for kids ages 9-12, but it's fun enough to read aloud to those slightly younger and clever enough for kids who are a bit older.) --This text refers to an out of print or unavailable edition of this title.

**From School Library Journal** Grade 2-4-Jane finds a magic charm which grants half of any wish, and her brother and sisters take turns making double wishes, leading to strange happenings-which leads Jane to make a last wish. By Edward Eager.
